

Tervetuloa! The T. Rvdzinskaitė Memorial Amateur Lichenologists Society is over the moon to announce the imminent launch of our somatic space-tech social enterprise...

TARA TOURS

ASTRAL TRAVEL AGENCY

Tara Tours Astral Travel Agency was formed to deliver unforgettable, tailor-made breathwork-powered journeys. We envision this future-facing initiative will generate much-needed revenue for the Society, supporting our mission to promote the love + study of lichen in this galaxy and beyond. Over time, Tara Tours should keep afloat our many volunteer-led departments— from the Metta-Verse Mutual Aid Space Program and its offshoot Space-Time Fab Lab, to the Crystal Radio Lab, Photosynth Social Club and Therolinguistics Reading Group— for aeons to come.

In our Space-Time Fab Lab (as many of you know) a team of dedicated enthusiasts have been busy with the nuts + bolts of cosmic co-becoming - developing song, voice and bio-resonance as an experimental technology for manipulating space-time.

It was here in the Fab Lab that our researchers stumbled upon the Tara Technique, while dissolving matter into its spectral frequencies.

Tara Tours Astral Travel Agency brings the Tara Technique out of the Lab and into the "real" world. Drawing on cutting-edge breathwork technologies for its chemical-free propellant, Tara Tours seeks to seed a different kind of space-tech start-up: a greener, more accessible and equitable alternative to "SpaceX"-style tourism.

We'll be on-boarding prospective initiates at the DiWo[®]-NUTS Feral Trade Fair 2092

*Do-it-With-Others

Diwo-NUTS Feral
 Trade Fair is the
 pre-eminent intergalactic
 gathering of beings
 pursuing solidarity
 economies that support
 life - start-ups, exchange
 networks, citizen science
 labs, zine libraries and
 free associations.
 Find us at the 2092
 edition in Stall 21!
 This year the fair's
 theme is "quantum
 sprinkles".

Tara Tours is a collective, DiWO endeavour – together we get somewhere!
 If you're curious to join a tour, we suggest prepping with a simple exercise.
 This visual contraption will help you along:

Soften your gaze
 to rest lightly
 upon the design. →
 Allow any thoughts
 to arise and pass.
 Focus on breathing
 steadily. Take a
 deep breath in,
 hold and exhale,
 pause. Cosmos
 breathes in, Cosmos
 breathes out...
